unscrew
and insert
to desired
height

The Kids Drawing Easel for iPad by CTA Digital helps protect the iPad and safely bring the wonder of tablet technology to young children while inspiring their creative and artistic minds with a modern take on the classic easel. This 2-in-1 child-size drawing easel features a fun dry-erase marker board on one side and a special iPad holder on the other side for the touch of technology this generation's children will need for tomorrow and want to play with today. The easel legs can easily be adjusted to different height levels to keep up with growing children and comfortably suit their needs. The tablet holder in the center of the easel secures the iPad so it won't accidentally be dropped or misplaced by children and it can rotate 360 degrees to easily set to either portrait or landscape position. With the versatility of CTA Digital's Kids Drawing Easel for iPad, children can have a head start for tomorrow with one amazing platform that blends traditional and tablet activities for an enhanced learning and fun artistic experience.
